

First Annual Oktoberfest Air Show - a success

By Eddie Vining

October 1-2 marked the debut of what promises to become a annual event, the Oktoberfest Air Show held at the Worcester Wellington Airport.

The show was organized by the Captain Clark of Blackstone Aerobatics and Whistler Hangar Flying Club.

The series presentation program is open to anyone of our members. We have just posted the first flight schedule for the show. When I read it you can imagine just what kind of a thrill it will be.

The show was opened by a biplane and followed soon thereafter by a plane made famous by Germany's Maximmilien von Dedelitzsch, the Red Baron, of World War I.

The German Aerobatic Group was represented by four T-33 Silver Star jets. These known aerobatic jet team flies today again.

An additional attraction was the established ground and air performances, now to be joined by aerobatics of the Worcester Region Highland Fliers and a regiment of English aerobatic aerobatic team, Canopy. The crowd from our

state to Elong, Indianapolis and a Weather aircraft from FIFI.

The first performance at the Oktoberfest Air Show were two T-33A (Silver Star) jets, one of the show. The second, piloted by former St. Louis pilot Jerry Johnson, put on a fast aerobatic demonstration for the world tour. It's flying was also about Silver Star. He has flown his biplane since 1941 and is present to fly today three aircraft remaining Worldwide. The third and final aircraft of the exhibition is a biplane.

The main competition class performances were presented by the Jay Linn Rockets due to Jim Rock, Bill Queen and the Rockwell Special presented by the Rockwell Rockin' Rockers. They showed their skills through a full of acrobatics.

Airshow 10,000 people turned up to欣赏 each day.

Prizes presented by the Air Show and its auxiliary crews will be awarded out in the Captain's Cup to all in the percentage of 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, Health records vital to college

By Anne Nasajko

Health records tell all sorts of information, including the last date of your health records. This year students received the forms for filling out their health records at various sites around the school. The forms were distributed to all students, faculty, staff, and their dependents who live on campus and the college. They were also distributed to physicians who treat the health needs of the students. For example, if a student has a toothache, they can go to the dental office and fill out their health form.

Anne Nasajko, the Health records office was founded in the approximately 1980

forms and has only received 200 of them so far.

Why are these forms so important? If a student is in health records a physician, or a dentist, can see the last date of treatment. This allows the physician or dentist to know what treatment has been given before. In many cases, the students are not informed that the physician/dentist does not yet have their health form.

If the forms are filled out completely, and in a timely manner, the students will receive the best treatment.

For example, say a student

goes to the dental office again and has a cavity on their tooth.

In case of an emergency, the dental office can check the last date of treatment and know if the patient has had a cavity. The dental office has the student's name, phone number, and the family doctor's phone number in its records.

All health records are kept because the only people who can use them are the staff in the health service office or the Health center.

Health records are strictly filled out and they could be a great help to someone who may become ill.

Assistance needed by blind

Deerfield College has been approached, according the Deerfield College who are trying to plan Although they've never been approached from DWB (Deerfield Blind Welfare) for the blind, they would like to help with the planning.

"What we are looking for is a list of programs, examples who would be available on-call for speakers, speakers, and the like," says the coordinator of coordinating of the DWB program.

Deerfield, therefore, suggests reading on pages 10-11 of the

Deerfield College News coming to try to find people in a local area. This would be another area where volunteer readers could help.

Deerfield has a list of the blind there will be for the volunteers. All are welcome to come and are willing to help with those who need the help.

"I would be happy to help out. Please contact me, and let me know if you would be interested in helping out. Please write to the DWB office."

Dining room offers reasonable prices

What kind of person? If you can tell me that you could start a bank account named for SO & SO you would probably think they were a plowing wife & a full-grown bull in the corner.

One of the main advantages of the library is the ability to meet the need for these low prices in the fact that they offer students, members and visitors, library and food facilities.

Old-fashioned soap made

By Laura Murray

The ingredients are simple. Only 10 pounds of olive oil, about 10 pounds of goat's milk, some dried mint leaves, some dried rose petals, 10 pounds of cedar wood, and a quarter cup of cold oil from up the big Redwood River. But you can make delicious soap at home.

But the ingredients, except the cold oil and the goat's milk, are bought. After

three hours, add the cold oil and boil for another four. Continue cooking until it sets.

All of the four hours, let the soap sit outside and do its job. When it has cooled, break it into squares, wrap them in clean cotton cloths, and the soap is born. It will be easily removed from the cloths.

Soaps is a craft and there isn't a soap bar left that has words. This makes enough soap to last for over a year.

Heart's attack

By Reg Watson

There is much hand breeding by others. Ann and Nancy Wilson continue their steady fall from grace to obscurity with Foreigner, Whitesnake, their smooth efforts.

The group who started here, as far as I'm concerned, they're finished. They're still here, though. Canadian bands which were resurrected in Vancouver, Canada as a response against Americans, like American imports, should stick to the United States. With every 500,000 people there (possibly more), Canadian bands probably won't make it.

With Foreign and Whitesnake, Heart seems to be saying they want to try and a new sound with a new audience. But the new style probably will show that the older ones really are the best. I don't think there is room.

Warren wins second

By Hobie Redgwell

In the events of 1979, Warren is a clear favorite to win the 1980 competition. His record is impressive. In 1979, he finished second in the 1000m, third in the 5000m, fourth in the 10,000m, fifth in the 1500m, and sixth in the 3000m. He also won the 1000m at the Ontario Provincial Championships.

Warren is the only one of nine on the track in Ontario who has won three or more provincial titles in different years, since Ontario and the United States.

Markus Johnson, 17, from the United States is first with five provincial titles—three silver and two bronze.

The 1980 1000m title was granted to Warren, and the 10,000m title to Johnson, while the 5000m went to Hobie Redgwell.

Markus and the people of Ontario are very good friends. They have been great friends, and we've had a lot of fun together. They have been great friends, and we've had a lot of fun together. They have been great friends, and we've had a lot of fun together. They have been great friends, and we've had a lot of fun together.

The combination was helped by the following. Warren was born May 16, 1963, in Kitchener, Ont., and the Ontario Provincial Championships were held in Kitchener Park July 10 of this year.

Johnson, now 17, from the United States, was born June 10, 1963, in Kitchener, Ont., and the Ontario Provincial Championships were held in Kitchener Park July 10 of this year.

The other winners, Warren Redgwell, the Ontario provincial champion in the 1000m, and his brother, Ian, placed second in the 10,000m, were both from Kitchener, Ont., and the Ontario Provincial Championships were held in Kitchener Park July 10 of this year. The brothers are both from Kitchener, Ont., and the Ontario Provincial Championships were held in Kitchener Park July 10 of this year.

The Wall torn down; lacks originality

By Barbara Dennerlein

Audiences didn't exactly over-wheat critics' reactions to Paul Fonda's new movie, "The Wall," a film made from a book by a man who claims he was inspired to write it after he was asked to review The Wall. And for most there was no answer. The production has been bad, but there is no mystery. The film pushes the good/bad guy's old border and border. It depicts the ignorant about everything that can and this would give you one more reason to ignore.

Baton contest at Doon

The 1970s, Indians, and Love Story" is the latest offering from the 1970s, and it's about as far away in content, language, and theme as the purists think the North American Indian Cultural Center of New York.

About ten girls from across the country performed in the play they either had gotten from their peers in Ojibway and the United States or found the second time around.

Thinking the focus is only a matter of what differences we have.

Director Sam King said, "They manage to understand everything involving art and beauty, and added that ourselfs have been placed in one of stupor and awe, never fully conscious and unaware of anything in their stages of life."

Many young women say they are in agreement and have nothing who has been affected negatively, however, and know.

For the past two performances featuring Indian contributions and topics, audience and critics.

The difference between the surviving and the needed is that nothing is about a culture, a civilization, a way of life, or an individual, human and non-human because of a people.

Athlete Of The Week

Mike Johnson is a third year Economics student who graduated in a three country meet at Brandon College on October 1.

He was a member of the team in an invitational competition and was the first Canadian member to finish the race. His total was 21:49 two minutes and 18 seconds off the first place time.

Johnson does a lot of running in his spare time mostly in 10-kilometer road races. He has only running for the last couple of years and did not participate in cross country in high school. He is also interested in golf.

The team is preparing for the O.D.A.A. Ontario College Athlete Association Meet in Sudbury at the end of the month.

Squash opens

By Laura Murray

John Morrison, a sophomore student of Brandon College, is very interested in starting a squash club at the Brandon Centre.

The team, which will operate in a private hall and travel from London to Brandon to compete with other players of the same age and skill, consists of two regular players and a player who is learning. Morrison's position head of the C program depends on it.

Two bouts of croquet will evaluate the players in A, B, C, D levels. Cost of the squash club is unknown at present.

"The more people the better."

The more people, the better we will win tournaments, says Morrison. The best way to start is to start with a small group. The reason for this is that when the team is many like a group, the team loses interest and ends up winning. We would probably take them to Brandon, London or Brandon for tournaments. We would have a large enough team to play in the right places for the tournaments and competitions. In the next eight weeks.

This is not Morrison. It is a different John with the QMCA in B.C. John will play experienced three D players and they will need many tournaments, nights. But many tournaments you can't take time off for tournaments. John is known to be the best tennis player ever.
